EDUCATION

New York Institute of Technology

Master of Science in Computer Science

GPA: 3.63/4.00

Expected May 2026

Stony Brook University

Bachelor of Science, Double Major: Health Science & Psychology

May 2022

PROFESSIONAL EXPERIENCE

The Dinner Table Documentary

Oct 2025 - Present

Data Research Intern

- **Collect, clean and validate datasets** from **databases**, surveys and internal sources, to ensure accuracy and consistency across all records.
- **Analyze and visualize data** using **Excel, Google Sheets, Power BI** to summarize program metrics and identify patterns to support impact reporting.
- Collaborate with data analysts, project managers and engineers to translate findings into data-driven reports and presentations for decision-making.

New York Institute of Technology

Sept 2024 - Present

Web Developer – The Campus Slate

- **Design, develop and maintain** the official web publication site of NYIT's student-run newspaper, to ensure responsive performance, accessibility, and intuitive UX across devices.
- Implement and optimize **front-end architecture** using **HTML, CSS, and JavaScript** improving load times, scalability, and content organization.

Head Undergraduate Teaching Assistant

Jan 2024 – Present

Courses: Theory of Computation | Discrete Structures | Introduction to Software Engineering | Computer, Internet and Society

- **Lead a team of 3 TAs** supporting **750+ students** across four core Computer Science courses, coordinating grading workflows, review sessions, and digital content delivery.
- Develop **Python and Excel-based scripts** to automate grading and attendance tracking by streamlining workflows and monitoring student progression across exams, assignments and attendance.

NYU Langone Health & Stony Brook University Hospital

Sept 2022 – Jun 2023

Anesthesia Technologist Intern

- Collaborated with **10+ anesthesiologists and CRNAs** across **15+ surgical cases daily**, configuring and preparing operating rooms (ORs) and anesthesia workstations to ensure seamless integration of medical devices, sensors and monitoring systems for high-availability surgical environments.
- Verified, calibrated, and maintained anesthesia delivery machines, ventilators, and patient monitoring interfaces, improving **equipment reliability and operational efficiency**.

PROJECT EXPERIENCE

Simplified Navigation App (In Progress)

- Developing a simplified navigation application with a focus on accessibility for non-English speaking users (Bangla)
- Implementing and integrating mapping APIs to support real-time geolocation and map rendering

B+ Tree Database Index (Java)

- Collaborated with 3 teammates to build a B+ tree in Java supporting insert, search, and range queries over stored records
- Designed node splitting and rebalancing logic to maintain balanced tree properties and optimize lookup performance

Finite State Machine Engine (Java)

- Implemented a deterministic finite state machine in Java to control application workflow through a team-built project
- Refactored input handling into structured state transitions with validation to ensure reliable, predictable execution

Style Tagger Chrome Extension (JavaScript, DOM APIs)

- Developing a browser extension that analyzes dynamic webpages, extracts product text and classifies items through asynchronous requests to a FastAPI backend
- Renders badges and highlights using DOM manipulation to updates results as new content loads on the page

Inventory Management System

- Collaborated in a team to analyze Zoho Inventory to understand system architecture, inventory workflows and data handling
- Translated system behavior into data flow diagrams, use-case diagrams and other models using agile based planning

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML/CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Bootstrap

Databases: MySQL, MongoDB, PostgreSQL

Relevant Coursework: Machine Learning, Artificial Intelligence, Software Engineering, Algorithm Concepts, Programming Languages, Operating System Security, Computer Networks, Information System Security Engineering and Administration
